## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 3 is rejected under 35 U.S.C. 102(b) as being anticipated by Arehart et al (#6,230,455).

Arehart et al show a backrest comprising an endless main frame (12) (see Appendix A- Figure 4) including a groove defined in a side and extending along an entire length, the groove being delimited by a bottom wall and an inner peripheral wall having an endless end face, a mesh (64) fixed to the endless face of the inner peripheral wall delimiting the groove, a decorative frame (52) mounted to the side of the endless main frame and covering the groove and the endless end face of the main frame, and a covering member (62) covering the decorative frame wherein the bottom wall delimiting the groove has a plurality of fixing holes defined. The decorative frame has a plurality of holes with a plurality of fasteners (54) respectively extending through the holes of the decorative frame and the fixing holes of the bottom wall delimiting the groove.
